ATEM Mini | Blackmagic Design

ATEM Mini switchers make it easy to create professional multi-camera productions for live streaming to YouTube and innovative business presentations using Skype or Zoom! Simply connect ATEM Mini and you can switch live between 4 high quality video camera inputs for dramatically better quality images. Or connect a computer for PowerPoint slides or gaming consoles. The built-in DVE allows exciting picture-in-picture effects, perfect for commentary! There are loads of video effects too! All ATEM Mini models have USB that works like a webcam so you can use any streaming software while the ATEM Mini Pro model adds live streaming and recording to USB disks. ATEM Mini even has secret broadcast features built in so it can do high-end work!

Microphones

Samson Meteor USB mic

Meteor Mic is a portable USB studio condenser microphone for recording directly to your computer. Perfect for your home studio, Meteor Mic is also ideal for podcasting, music recording, gaming, Skype or streaming. With Meteor Mic, you can make incredible recordings that are out of this world.

Rode's Lavalier GO mic

Lavalier GO is a professional-grade wearable microphone designed for use in a wide range of applications. The 3.5mm TRS connector is designed to pair perfectly with the RØDE Wireless GO and most recording devices with a 3.5mm TRS microphone input.

RØDE Wireless GO

The Wireless GO is an ultra -compact wireless microphone system that is unique in its clip'n'go versatility and incredibly compact form-factor. The transmitter features an in-built omnidirectional condenser capsule and can be used as a clip-on mic or with a RØDE lavalier, sending crystal-clear, broadcast-grade audio via 2.4GHz digital transmission to the on-camera receiver. It's the perfect wireless mic solution for content creators in all disciplines: filmmakers, on-camera presenters, newsgatherers, vloggers and more.

Includes:

Rode VideoMic NTG

The VideoMic NTG is a broadcast-grade, feature-packed shotgun microphone optimised for on-camera use. It features the same revolutionary acoustic design as the NTG5 broadcast shotgun microphone, which delivers unmatched transparency and a natural, uncoloured sound. Add to this an incredibly flat frequency response, highly directional supercardioid polar pattern, and very low self-noise, and what you have is a compact on-camera microphone that contends with the world's best shotgun mics.

Sound

AirPods Pro-Apple (ZA)

- Active Noise Cancellation
- Transparency mode
- Adaptive EQ
- Vent system for pressure equalisation
- Custom high-excursion Apple driver
- Custom high dynamic range amplifier
